Hi Brian,

Here is the version Raghu worked for the in vitro mammalian studies. I marked the comments.

Make sure we have a summary statement for each sub section and a grand summary for the in vitro section. Also, check for any abbreviations or minors editorial stuff and fix them. If possible trim the text getting the message across.

Remember, Craft et al study was pointed out by NAS to minimize the text.

Try to shoot for the end of the day today.

Sury
